Printing tips

Paper size

This file is US Letter. Print at 100% (Actual size), not "Fit to page", so the frame isn't clipped.

One side only

Every page is one-sided, so markers can't bleed through onto another picture.

Paper

Plain printer paper is fine for pencils. For markers or watercolor, use cardstock (65 lb / 176 gsm or heavier).

Phone printing

On iPhone: tap Share, then Print. On Android: the three-dot menu, then Print.

Light lines?

In your printer settings, choose Best or High quality, and Grayscale.

Share it

Finished a page? Show it on Friday in the Club. Hands and pages only, no faces needed.
